NOTE.

The assistance of all Government Officers and others who have kindly supplied figures for the respective branches of business concerns under their supervision is gratefully acknowledged.

I am also indebted to Mr. W. L. Wilson, Deputy Government Statistician, for his able assistance in supervising the compilation of the various parts of the "Statistical Register," and to the following officers who have had charge of sections of the tabulation :—

Mr. R. J. Little ...	Chief Compiler.
Mr. C. R. Muirson, A.F.I.A.	Assistant Compiler.
Mr. R. S. McLennan, A.F.I.A.	,, ,,
Mr. J. W. Healy ...	,, ,,
Mr. J. Smythe	,, ,,
Mr. F. R. B. Purdy ...	,, ,,

Mr. W. Morrison recently retired from the position of Deputy Government Statistician, after 37 years' association with the Department. In his period of service, he performed work of a very high order, especially in recent years during which so much statistical research has been required to elucidate the grave problems arising as a result of the great depression.

TOTAL PRODUCTION.*

As no complete Statement of the Total Value of Production of the State is shown in any part of the Statistical Register the following table is here appended :—

Estimated Value of Western Australian Production, 1926–27 to 1933–34.

Note.—The "Gross" Value of Production, shown in light type, is based on prices realised at the principal markets. The "Net" Value, shown in heavy type, represents the amount divisible amongst the several agents of production after the "Costs of Marketing" and the "Value of Goods Consumed in the Process of Production" have been deducted. Thus while the Gross Value of Production contains duplications as between industries, such duplications are eliminated in the Net Value.

No. 9.—Summary of Western Australian Trade, Year ended 30th June, 1934.

In the Summary hereunder, Exchange is added to the declared value of Oversea Imports, thus expressing the latter in terms of *Australian* Currency in common with all other declared values.

A deduction is also made on account of Gold shipped in excess of Current Production, so that only Gold won during the year under review is credited in arriving at the *Net Visible Balance of Trade* for the year.

No. 35.—Transactions of the Fremantle Harbour Trust and Bunbury Harbour Board during the undermentioned Periods.

NOTE.—The expenditure bases of the two Corporations are not the same. The Fremantle Harbour Trust employs all labour engaged in handling cargo on the wharves, whereas in the case of the Bunbury Harbour Board, general cargo is handled by the Railway Department for and on behalf of the Board, and bulk cargo by the Stevedores, and no revenue (other than wharfage) is derived therefrom or expenditure thereon incurred.

NOTE.—In addition to the above figures the following particulars were also obtained :—Acreage Planted Forest Trees, 2,969 acres ; Lands farmed on the "Share System" : For Cultivation, 77,603 acres. * The reason why Returns relative to certain alienated and leased lands are not obtained under the Statistics Act is mainly to be found in the fact that it has proved impracticable for the Statistical Collectors to enforce the provisions of the Act in connection with lands which remain *entirely unimproved or unstocked*, and also in a lesser degree to the fact that small holdings under one acre in extent are exempted from supplying Returns. The Statistical returns are, however, collected from all lands over one acre in extent on which improvements have been effected, and upon which Agricultural or Pastoral pursuits are carried on, and, therefore, comprise all lands the obtaining of Returns from which would serve any practical purpose.

NOTE.—This table has been compiled with the special object of showing the values of the importations into Western Australia in the past eight years of such products of the soil and of live stock as might in the future be produced within the State, but are at present introduced to supply the deficiency in local production. It serves, in some respects, as a basis for calculations as to the market reasonably to be expected therein for home-grown products.

STATISTICAL VIEW OF THE PROGRESS OF WESTERN AUSTRALIA, 1829 TO 1933-34.

Note.—Prior to the year 1837 no Blue Books were issued, and figures relative to arrivals and departures, shipping, imports and exports have been taken either from the reports of the Harbour Master at Fremantle or from Perth newspapers of the period. From 1838 to 1859, inclusive, migration figures show only the excess of arrivals over departures or *vice versa*.
